Hello everyone, this is David Kerindi from DX2 Music. We have been busy promoting the charity single 'Help The Heroes' by Frixtion. He is donating ALL profits to Armed Forces Charities including The William Aldridge Foundation.

On this special Armed Forces Day it is a time to say a big thankyou to our troops and remember those that are not with us. There are many events throughout the country today and I am offering you one from your armchair.

The song 'Help The Heroes' is the debut single from Frixtion. With a family background in the armed forces he instructed us that his first song would be for charity. It is a tremendous gift from an 18 year old, and his song lyrics are equally gifted.

Please, have a watch of the video and listen to the song, after which you can purchase it from iTunes, The HipHop Village and most popular download sites.

You can download the song at:  
The HipHop Village

Thanks.
